

Reports (F&B): In a table there were 8 people ordering different food items

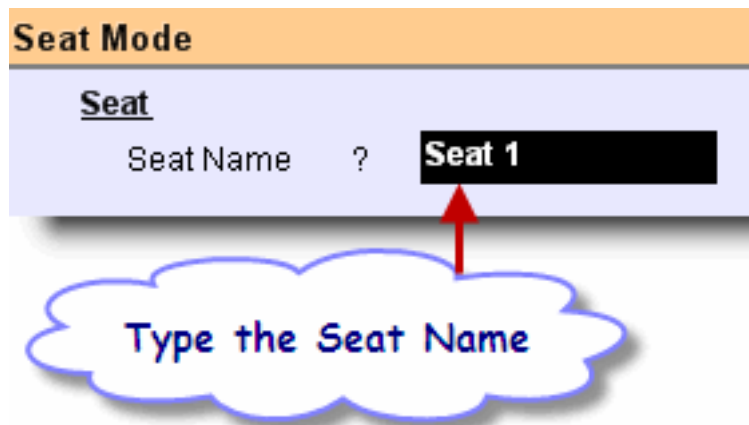

I want to serve them individually with their respective ordered foods. How to implement this in RanceLab@FusionRetail™ 6?

Answer:

In a situation like this you can use the **Seat Master** to accomplish the task. Please follow the steps given below to accomplish the task.

Step 1: Creating the Seat Master

1. Go to **Main Menu > Master Data Management > F & B > Seat Master (M > F > E)**
2. Type Seat Name.
3. Save.
4. Repeat step 2 and 3 to create more Seats as per your requirement.

Step2: Applying Seat in Touch POS Order screen

1. Go to [Main Menu > Sale Management > Transaction > Sale Invoice \(Touch POS\) \(S > T > T\)](#)
2. Open a Table.
3. Press **A** or click the “**A Seat**” button.
4. Select Seat from the list.
5. Press Ok.
6. Select items as per customer request.
7. To select another seat Press **A** again.
8. Select next Seat.
9. Select items as per customer request.
10. Repeat step 3 to step 9 as many time as you require.

The screenshot displays a bar management software interface. On the left, there is a menu with categories: Blenders Pride, Cardhu, CHIVAS R, CUTTYS, Bar Modifier, Whisky, Aperitifs, Appetizers, and Bar Food. The top left shows a table with columns 'Qty', 'Items', and 'Amt'. The top right shows a list of drinks: Jw Red Lable, Lagavullian, Oban, Passport, Royal Challenge, Talisker, and Teachers 50. The bottom left shows the date '29-Jan-2011', time '06:49 PM', user 'Adm', station 'Server', menu 'S', and bill number '0'. The bottom right shows 'Customer: [None]' and 'Items: 1'. A large yellow box in the center contains a list of seats: 'Seat Name', 'Seat 1', 'Seat 2', 'Seat 3', and 'Seat 4'. Below this list are 'Ok' and 'Exit' buttons. A red arrow points from a callout box to a 'A Seat' dropdown menu.

A Seat

Press the Seat button to open the list of the Seat.
