

Reports (F&B): Is it possible to search the last order details for a customer by using his phone number in Touch POS?

Answer:

Now we can take orders through phone calls in an entirely new user friendly interface. It will also show you the last order details of that particular customer, if he/she visited previously in your restaurant and you have proper details about him. Please follow the steps given below to accomplish the task.

Step1: Setting the Advanced option in Sale Invoice

1. Go to [Main Menu > Sales Management > Transaction > Sales Invoice \(POS\) \(S > T > S\)](#)
2. Press **Alt + O**.
3. Set “**Prompt to select Customer on start = Advanced**”.
4. Save.

Step2: Transaction in Touch POS

- Go to [Main Menu > Sales Management > Transaction > Sales Invoice \(Touch POS\) \(S > T > T\)](#)
- Ask customer and enter his/her **Mobile number**.
- Press **Enter**. It will lead you to two specific situations...
- **The database already have the details about that customer**
 - If your database already has details about that customer, FusionRetail™ 6 will show all the details of that particular customer with all the **transactions** of that particular customer along with the **order details** against each transaction.
 - **The customer wants to re-order any previous order**
 - Select the order from last order details.
 - **Alt + R** (or you may use ‘**-R Re Order**’ button).
 - It will lead you to the order taking screen
 - Select any other items if required
 - Tender
 - Finish
 - **Customer wants to order new items**
 - **Alt + C** (or you may use ‘**-C Select Cust**’ button)
 - Enter order
 - Tender
 - Finish
- **There is no detail about the customer in your database**
 - If your database don't have any details about that customer just enter the details
