

Product Management: Is it possible to change the Unit of Multiple Product at once?

Yes. This is very much possible and we call it bulk update in FusionRetail 6.

It might happen that during the product master creation someone has made a mistake choosing the unit for certain products. This process will help you to modify the unit of multiple product in one go.

These steps will help you to do so:

1. Go to [Master Data Management > Inventory > Product Management](#) (M > I > P)
2. Display (Alt + D)
3. Select the column of **Stock Unit** of all the items which you want to change
4. List (Alt+L)
5. Select an unit name as per your name
6. Press enter
7. Save

Product (1665)
