

# Scheme and Promotion: Buy most valuable at full price and get rest of the product(s) at discount in the same invoice.

**Scenario:** If a customer buys four products, then he'll have to pay full sale price for the most valuable product among four and rest of the three products will be charged 40% less.

## Steps are as follows:

1. From main menu go to the [Scheme & Promotion](#) (M > I > S)
2. Set Scheme name at "Scheme Name" field. E.g. "Buy X at Full get rest @40% less"
3. Set Discount Type = Buy X, Get Y
4. Subsequently "Method" screen will appear as shown below
5. In the "Method" screen, set "Or Get Discount on Any Qty" field to **Yes**
6. And set discount percentage at "Or Discount Percentage" field, then click **Ok**
7. Set other details
8. Press ALT + L at "Product" field to select the required products from the list
9. Press ALT + S to save the changes
10. Now in the [Sale Invoice \(Scan POS\)](#) and [Sale Invoice \(Touch POS\)](#), discount will be applicable as per the above scenario.

**Method**

Buy Qty. at Full Price	:	<b>1.00</b>
Get Qty. at Discount Price	:	<b>1.00</b>
Or Get Discount on Any Qty	:	<b>Yes</b>
Discount Price (Sale Value)	:	<b>0.000</b>
Or Discount Percentage	:	<b>40.00</b>
Calculation Based On	:	<b>Minimum Value</b>

Ok
Exit

<b>Method:</b>	
Or Get Discount on Any Qty	Set <b>Yes</b> if you want to sale most valuable at full price and rest of the p the same invoice.
Discount Price (Sale Value)	Enter discount in value; it will be applicable on every product except th
Or Discount Percentage	Enter discount in percentage; it will be applicable on every product exc the bill.

## Note:

- If you set **Or Get Discount on Any Qty = Yes**, then fields like "Buy Qty. at Full Price", "Get Qty. at Discount Price" and "Calculation Based On" will no more be applicable. And every product except the most valued in the bill will be sold at discount as stated above.
- Discount is subject to the products selected in the said [Scheme & Promotion](#).
