

# Property Management: Is it possible to warn my user if he is doing entries with previous dates?

Session date control added in FusionRetail 6 designation setup to control back days and post days entry,

- Go to [Main > Master Data Management > Others > Designation Set Up \(M>O>D\)](#)
- Alt + L
- Select Designation from the list
- Set “No. of Back Days(Session) = 3” [as per your requirement]
- Set “No. of Post Days (Session) = 3” [as per your requirement]
- Go to “Session Date Control (Back Days)”
- Alt + L
- Select
  - Continue (to continue the user without interruption),
  - Stop (to restrict the user) or
  - Warn (to warn the user by showing a warning message).
  - Repeat the same for “Session Date Control (Post Days)” as per your requirement.
